

## 2019 Community Involvement, Engagement And Social Responsibility

Robinson Manufacturing is committed to partnering with organisations whose values mirror our own, from the construction sector, sport and social enterprise.

That commitment extends to financial support and supporting our teams as they plan and implement fund-raising activities.

During 2019, RML will continue to demonstrate our commitment to promoting excellence in the housebuilding sector by sponsoring the Best Medium Housebuilder category at the annual WhatHouse Awards, rewarding excellence in delivery of new houses.

In sport, we are working with Middlesex Cricket Club, the Professional Cricketers Association and Coventry Rugby Football Club, where sporting inspiration leads a culture of excellence.

Our partnership with the Create Streets Foundation supports research and innovation in the housebuilding sector as well as the involvement of communities in how their areas are developed.
