

QUALITY POLICY STATEMENT

Robinson Manufacturing Limited (RML) can be described as 'roof truss & floor joist specialists' who provide the following services:

- Specialist projects involving design and development
- Trusses, floor joists, i-beams, metal web joists, glulam beams and spandrel beams
- Delivering prestige projects

With headquarters in Wellingborough and an additional six sites throughout the UK, RML operates on a UK basis.

RML client base covers the whole spectrum of the construction industry - including main contractors. In addition, specialist expertise has supported the development of an excellent reputation within sectors including:

- A) Private developments
- B) Commercial developments
- C) High precision manufacturing and
- D) Reliability manufacturing

Our dedication in offering and delivering top class services has provided us with a first-class portfolio. It is our prime objective to ensure that this remains the case and commits us to continual improvement and development within the business.

To achieve this, we determine business and internal objectives, which are published and communicated to all members of staff and associates. Progress towards achievement of these objectives is regularly reviewed to ensure that commitment is maintained and targets are achieved.

BS EN ISO 9001: 2015.

This system is comprehensive and covers all client requirements and expectations in addition to meeting the Company's operational objectives.

Implementation of this policy is by the use of process focused procedures, which are monitored on a regular basis by internal management. In addition, the system is reviewed annually by a UKAS accredited assessment authority.

HEALTH & SAFETY POLICY STATEMENT

The chief executive and Managing Director along with the senior leadership team regards the promotion of health & safety as a mutual objective for management and employees, at all levels.

It is therefore this Company's policy to do all that is reasonable to maintain and continually improve health and safety within the Company. In particular, to prevent personal injury, damage to property and to protect all employees and the public from foreseeable work hazards in so far as they come into contact with the Company or its products.

The Company has responsibility:

- to provide and maintain safe and healthy working conditions taking account of any legal and statutory requirements;
- to provide training, instruction and supervision to enable employees to perform their work safely and efficiently;
- to make available all necessary safety devices and protective equipment and to maintain their use;
- to consult and involve employees or their representatives whenever possible, in matters concerning health & safety, and
- to maintain safe plant and systems of work.

Employees have a duty to co-operate in this policy:

- by working safely and efficiently;
- by using the protective equipment provided, and by meeting statutory obligations;
- by reporting incidents that have led, or may lead, to injury or damage;
- by adhering to Company procedures, jointly agreed on their behalf, for securing a safe workplace, and
- by assisting in the investigation of accidents with the objective of introducing measures to prevent a recurrence.

Robinson Manufacturing Limited

ENVIRONMENTAL POLICY STATEMENT

Robinson Manufacturing Limited (RML) recognise that our business operations have a significant impact on the environment.

We are committed to minimising the impact that our business activities have on the environment and to meeting or exceed legislative requirements.

We have been granted certification to the PEFC international chain of custody scheme and we actively seek to partner only those timber suppliers who operate a policy of responsible timber management. In doing so, we will comply with the requirements of the European Union Timber Regulations.

RML will not knowingly use species of timber that are prohibited or are not from legal sources. We will endeavour to work only with suppliers who can demonstrate their environmental responsibility and awareness.

RML will actively seek to reduce the consumption of raw materials within its operation and operates a policy to recycle wherever possible. We will identify and manage any risks or hazards whilst seeking to prevent pollution and limit the level of harmful emissions.

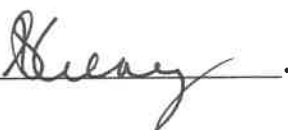

Our production processes are designed to minimise waste and our preferred finishing products are water based.

We aim to continually improve our environmental performance and will actively work with any organisation and stake holder to achieve our goals.

All our employees undertake training and awareness of the Company policy and its implications on themselves, the business and the public.
